

CONSTRUCTION MANAGEMENT, CERTIFICATE

The **Construction Management certificate** includes a range of technical architecture classes with basic business topics to give students a first level credential in the construction management field. The certificate prepares students for entry- level positions in construction firms and can serve as the first step to completing the AAS degree in Construction Management. It is especially suited to students who have construction experience or already have a degree in another field. This certificate requires 32 credits in the courses listed below.

For more information about Architecture, please visit the program page (<http://www.cod.edu/architecture/>).
