

DIAGNOSTIC MEDICAL IMAGING SONOGRAPHY, A.A.S.

The **Diagnostic Medical Imaging Sonography** program includes extensive didactic and clinical applications in the specialties of general and vascular sonography. Clinical applications include abdominal/superficial structures, obstetrics/gynecology and vascular imaging techniques. Upon successful completion of the program, students are eligible to obtain licensure in American Registry for Diagnostic Medical Sonography (ARDMS) in the following: Sonography Principles & Instrumentation (SPI) Physics Instrumentation; Abdomens & Superficial Structures; Obstetrics and Gynecology; and Vascular Technology. This degree requires 85 credits in program requirements and general education. All general education courses must be completed prior to admission to the sonography program.
